Hi there,

I'm writing in light of the notice we received - re application ref: DC/26/0464.

We thought we had submitted our thoughts on the system last weekend (Saturday evening) - but we can't see them online so I spoke with [REDACTED] in the planning team this morning, and he has asked that I therefore send this email to these addresses.

[REDACTED] I am the next door neighbour - at number 11 Vernon close.

Essentially, my husband and I would like more details of the plans as depending on where they measure the 4.5meters from - it may mean that (especially with a pitched roof) they block any afternoon sun from reaching our lounge and outdoor patio area/ garden which would be a shame. Hence, if that were the case we'd want to object - but is why it would be helpful to see more details of the plans.

Please do let me know if you need anything further from us at this stage.

Many thanks,
[REDACTED]
