| Comments:            | I believe that this will be a beneficial development for the specific piece of land and for the village as a whole.<br>The Gym will also see great benefits, where their customers will |

have another facility to use post workout.  
It is my opinion that there will not be any adverse effects (privacy or noise) on local neighbours. There will only be a minimal increase in vehicular traffic and some increase in foot and bicycle traffic to the site. As it appears that this will be sessional, then there will not be large groups attending at any one time.  
The space was unused and will look much better with a facility of this type in this location.  
There is no noticeable change in sight lines on the road or within the community centre estate.  
Please look favorably on this proposal.
