13th July 2026

From a Member of the Public and Resident of Barns Green for over 50 Years with over 47 years of experience in the water and wastewater treatment industry

For the attention of Ms Alice Johnson,

Objection: Application DC/25/2057 Land North of Little Slaughterford, Chapel Road, Barns Green, West Sussex – 68 Dwellings by Miller Homes

I object very strongly to this planning application.

Sewage Treatment Capacity and Discharges into Parsons Brook

We note the continuing erroneous and misleading statements from Southern Water regarding the capacity of the existing Barns Green sewage treatment plant to accept further foul sewage flows and loads from this proposed new housing development (DC/25/2057).

Can we therefore suggest that HDC employ a suitably qualified and **totally independent** consultant to fully review the current situation before any further housing developments are considered in Barns Green or any other developments in the area that may be connected to the Barns Green sewer network.

We would obviously be happy to share our information, calculations and findings with this **totally independent** third party.

I would be grateful if the full contents of this email together with my previous emails dated 02nd May 2026, 17th June 2026, 20th June 2026 and 30th June 2026 with the attachments could be placed before the Planning Committee.

Yours faithfully
