Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Highway Access and Parking - Privacy Light and Noise - Trees and Landscaping
Comments:	I'm a very close neighbour to the site and am supportive of the works. I would like the following considered. Please can the neighbours be kept up to date with timelines and rules implemented around the working times so we know when it will be noisy and how long everything will take.

Can site workers be prevented from parking vehicles in surrounding roads to reduce impact to local residents.
Would it be possible to put temporary barriers up along the tree line route where vehicles will be entering the site. This is currently green space and used by residents for walking and by children playing so blocking this off would be less disruptive and safer.
Thanks

Kind regards
