Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment
Comments:	There really should be NO further development in Henfield that will result in even more pressure and chaos at the junction of Church Street with the A281 Henfield High Street. The road at that point is VERY NARROW, and medium to large cars and SUVs etc, let alone trucks and emergency service vehicles etc have great difficulty getting in and out of that junction and pedestrians are in considerable danger. It is further complicated by the fact that the approach to the junction in Church Street is single lane because of parked cars, so at busy times chaos and danger to pedestrians reigns. An alternative route to avoid this junction should be created so as not to make a bad situation even worse by further housing or industrial development. ██████████

Kind regards
