Subject: RE: DC/26/0122 Windacres Farm Church Street Rudgwick

Hi Sam

Thanks for the consultation request.

There is no indication of the uses sought by the applicant. The only comment offered in the Planning Statement is:

“The applicant wishes to change the use of the premises from agricultural to an alternative use....”

The site is access via recent residential development and therefore the activity at the site has the potential to impact this new residential estate. Simple removal of the condition may prejudice the amenity of neighbouring residents.

To ensure the application is properly determined further information on the uses the applicant is seeking should be provided.

Regards

Lee
