Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Trees and Landscaping
Comments:	I object to this application. It supplies very little information or justification other than trees are leaning. Many trees lean, but it does not mean they are in danger of falling over if they have stood there for many years. Oaks and Birch play a very important part in sustaining wildlife, absorbing CO2 and water, providing shade and supplying oxygen, and we have lost many already to over development in the district.

Kind regards
