Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment - Trees and Landscaping
Comments:	I am a conservation education officer. Please stop destroying green spaces and habitats for native flora and fauna. It is a travesty to keep destroying areas like this. Not only that (though it should be reason enough) but there is no infrastructure to support this build. There are not enough local schools, doctors etc. Unless you also build those it will just put even more pressure on already stretched sectors, and people living there will have to drive out of the way in order to access any services, resulting in more traffic,

more pollution, more irritation and headache for everyone. Stop building on every patch of land you can see. We don't want it.

Kind regards
