Comments Details

Commenter Type:	Parish Council
Stance:	Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment:

Comments: The Parish Council has no objection to this application.

However, it strongly advises that works to Oak T3 should not be undertaken between April and September, works carried out during this period could cause stress to the tree, triggering epicormic growth and dense, fast growing shoots that could block further light to the property. Spring pruning also puts the tree at a higher risk to disease.

The Council has no objection to the works provided that they are

carried out during the tree's dormant period.

Oak T4. The Parish Council has no objection to the works if they are, again, carried out during the tree's dormant period.

Kind regards
