SOUTH LODGE – THE REEDS

LANDSCAPE ENHANCEMENTS – BUFFER PLANTING

The following photographs show areas of Buffer Planting, as shown on drawing 2453.5.1 – 08B which have been planted by the hotel as part of their B Corp promise and accreditations and which will serve to enhance the existing Birch Copse (Ancient Woodland).

Area alongside the existing green infrastructure link showing new planted trees and protection. The protection will be remove once established to discourage deer's and other animals from eating them.

Area behind reed bed and along edge of Birch Copse showing new staked trees.

Area behind reed bed and along existing green infrastructure showing staked trees to enhance Birch Copse.

View showing buffer planting alongside the existing green infrastructure adjacent to Bridle path

View looking South towards pump house showing buffer planting and existing hedgerow which is scheduled to be enhanced and repaired next year.

View of buffer planting staked trees alongside of green infrastructure link.

List of tree mix planted within buffer planting -
