Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other - Overdevelopment
Comments:	I strongly challenge this further consultation response from SW which is unbelievable when the extensive facts that have been presented are considered. This latest SW letter takes no account of the facts and is a blatant example of staggering mal-administration where no competence is demonstrated by this

further response which lazily supports the incorrect statements made in the SW letter dated the 21st January 2026. To claim there is sufficient capacity in the Barns Green sewage works for new housing is just plain incorrect and denies the facts. The reality is that there is a history of repeated raw sewage overflow discharges into Parsons Brook which in turn pollutes the wider river systems. Additional housing will just increase the pollution.

Kind regards
