Hi Nichola ,

So the developers of the estate have been requested by the residents to get it cut as the tree itself is off balance and they would like it looking better for the future and for the safety .

Hope this is of some help.

Kind regards

Ed (The Tree Men)

Please find attach the missing info , also if this what we need to attach to application now? As we have never needed to take photos of the tree before ? No bother at all if that's the case I just want to make sure you're getting the correct application from the start .

The oak is approximately 20m tall and would finish at 16m .

The pruning of the lateral branches would be no more than 1m

If I have missed anything else or you need anything else please let me know .

Kind regards

Ed (The Tree Men)
