Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	As a local resident, I support this application. The site sits directly next to existing housing and feels like a natural place for a modest additional home, rather than development in open countryside. The proposal appears respectful of the character of the village and would not harm the amenity of neighbours or the appearance of the area. A single dwelling of this scale is unlikely to place pressure on local roads or services and will contribute positively to the village by

bringing an additional household into the community. For these reasons, I hope the Council will look favourably on the application

Kind regards
