Reasons for comment:	- Other
Comments:	I would like to express my support for this planning application. We often hear strong concerns about the housing crisis and the difficulties young people face in getting onto the housing ladder; small-scale developments like this bungalow are part of the practical solution. Every additional home, however modest, helps address local need. This proposal is for a single, small-scale house that will not be visible from public highways and will have minimal visual impact.

The applicants are local farmers who at certain times of year, such as during lambing, need to be present on-site 24/7. Providing suitable accommodation nearby is entirely reasonable and supports the continued viability of their farming business. They are also long-standing and valued members of the local community, contributing socially through involvement in the local choir and economically through their farm-based food stall supplying locally produced meat and eggs, helping to reduce food miles.

For these reasons, I strongly support this application and believe it represents a proportionate, community-minded development.

Kind regards
