Comments:	The applicant isn't known to me, but I have a small farm business and know how hard it can be to find suitable premises to run a small business especially of this nature in the Southeast. I know the application site and area very well; the site is very suitable for a rural Equine vet facility. This application represents a sustainable, low-impact reuse of the property and already benefits from ample off-road parking for both staff and horse trailers. Local jobs can be created which can only be of benefit to the local

community.
I fully support this application.

Kind regards
