

**Horsham
District
Council**

DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:

DC/26/0265
9 Roebuck Close, Horsham, West Sussex, RH13 5UL

DESCRIPTION:

Replacement windows and door.

RELEVANT PLANNING HISTORY:

None.

DESCRIPTION OF THE SITE

9 Roebuck Close is part of a block of flats and is a residential property located within cul-de-sac of similar dwellings. The surrounding area is suburban in character, comprising mainly detached and semi-detached homes with consistent building lines, landscaping and frontage treatments. The property sits within its own plot with a private rear garden and a modest frontage typical of the surrounding development.

DESCRIPTION OF THE APPLICATION

The application seeks permission to replace the existing windows and doors to the property with new units of similar style and appearance. The works involve no enlargement of openings, no structural alterations, and no changes to the overall design or form of the building. The replacement units are intended to improve energy efficiency, security, and appearance while maintaining consistency with the existing dwelling and the wider streetscene.

RELEVANT PLANNING POLICIES

The National Planning Policy Framework (NPPF)

Horsham District Planning Framework (2015):

Policy 31 - Green Infrastructure and Biodiversity
Policy 32 - Strategic Policy: The Quality of New Development
Policy 33 - Development Principles

North Horsham neighbourhood planning

Voluntary withdrawal of designation: North Horsham Parish Council voluntarily withdrew their parish from the Neighbourhood Development Plan process on 30 July 2018.

Paragraph 33 of the NPPF requires that all development plans complete their reviews no later than 5 years from their adoption. Horsham District Council is currently in the process of reviewing its development plan however at this stage the emerging policies carry only limited weight in decision making. As the HDPF is now over 5 years old, the most important policies for the determination of this application must be considered as to whether they are 'out of date' (NPPF paragraph 11d). This

includes, for applications involving the provision of housing, whether the Council can demonstrate a five year supply of deliverable housing sites (NPPF footnote 8).

The Council is currently unable to demonstrate a five year supply of deliverable housing sites, with the supply currently calculated as being 1 year. The presumption in favour of development within Paragraph 11d) of the NPPF therefore applies in the consideration of all applications for housing development within the District (unless footnote 7 or Paragraph 14 applies to relevant applications), with Policies 2, 4, 15 and 26 now carrying only moderate weight in decision making.

All other policies within the HDPF as itemised above have been assessed against the NPPF and are considered to be consistent such that they continue to attract significant weight in decision making.

Horsham District Local Plan (2023-40) (Regulation 19):

Policy 19: Development Quality

Policy 20: Development Principles

Supplementary Planning Guidance:

Planning Obligations and Affordable Housing SPD (2017)

Community Infrastructure Levy (CIL) Charging Schedule (2017)

Planning Advice Notes:

Facilitating Appropriate Development

Biodiversity and Green Infrastructure

REPRESENTATIONS AND CONSULTATIONS RESPONSES

Where consultation responses have been summarised, it should be noted that Officers have had consideration of the full comments received, which are available to view on the public file at www.horsham.gov.uk

Consultations:

PUBLIC CONSULTATIONS:

Representations:

None received.

Parish Comments:

North Horsham Parish Council: No Objection

Member Comments:

None received

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT

Character and Appearance:

Policies 32 and 33 of the HDPF seek to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

The proposed replacement of the existing double-glazed timber-framed casement windows with new double-glazed timber-framed units would preserve the established appearance of 9 Roebuck Close. Whilst the replacements would alter the glazing pattern and style of the windows, which would contrast the other windows on the elevations, the proportions and opening method would be retained. It is not considered that the difference would be materially harmful to the existing building nor the character and appearance of the wider area. It is therefore considered that the visual impact of the proposal is acceptable and would accord with the above policies.

Residential Amenity:

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

The replacement of the existing windows with PVC equivalents would have a neutral impact on neighbouring amenity, with no unacceptable harm identified in accordance with the above policy.

Water Neutrality:

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the site necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF, NPPF paragraph 193 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

Biodiversity Net Gain (BNG):

Schedule 7A of the Town and Country Planning Act 1990 (as inserted by Schedule 14 of the Environment Act 2021) mandates that every development must achieve at least a 10% Biodiversity Net Gain (BNG) unless the development qualifies as exempt under the Biodiversity Gain Requirements (Exemptions) Regulations 2024.

The Applicant has demonstrated that the development is exempt from the requirement to achieve a minimum 10% BNG as it qualifies as 'de minimis' under Regulation 4 of the Biodiversity Gain Requirements (Exemptions) Regulations 2024.

Conclusions:

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

- 2 **Standard Time Condition:** The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 **Regulatory Condition:** The materials to be used in the development hereby permitted shall strictly accord with those indicated on the Elevations Plan reference 1 of 3.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

NOTE TO APPLICANT

Biodiversity Net Gain Condition

Paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 states that planning permission is deemed to have been granted subject to the "biodiversity gain condition" which means development granted by this notice must not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

Under Regulations 4, 5, 7 & 8 of the Biodiversity Gain Requirements (Exemptions) Regulations 2024 the statutory biodiversity gain condition required by Schedule 7A to the Town and Country Planning Act 1990 (as amended) does not apply in relation to planning permission for development which:

- 1. does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (a hedgerow habitat or watercourse habitat identified for the purposes of the biodiversity metric);
- 2. is the subject of a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015;
- 3. is undertaken solely or mainly for the purpose of fulfilling, in whole or in part, the biodiversity gain planning condition which applies in relation to another development (In determining whether a development is undertaken solely or mainly for this purpose, no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee);
- 4. consists of no more than 9 dwellings, is carried out on a site which has an area no larger than 0.5 hectares, and consists exclusively of dwellings which are self-build or custom housebuilding ("Self-build or custom housebuilding" has the same meaning as in section 1(A1) of the Self-build and Custom Housebuilding Act 2015 (as amended)).

In addition, the Biodiversity Gain Plan Condition does not apply to applications for major development made before 12 February 2024, or non-major development made before 2 April 2024.

Based on the information submitted in the planning application documents, the Planning Authority considers that this permission is exempt from biodiversity net gain, and as such does not require approval of a biodiversity gain plan before development is begun.

Statutory exemptions and transitional arrangements

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These can be found at Paragraph: 003 Reference ID: 74-003-20240214 of the Planning Practice Guidance, which can be found at <https://www.gov.uk/guidance/biodiversity-net-gain>.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.

Plans list for: DC/26/0265

(The approved plans will form Condition 1 on the Decision Notice of all Permitted applications)
