Reasons for comment: - Other

Comments: This proposed mast will be out of character for the area and taller than the local housing. Concerns will the phone cabinets obscure vision for car drivers of any young child trying to cross the road and not using the pedestrian crossing I appreciate that phone networks need to expand phone coverage, but no consideration has been given to its position exactly opposite the first floor window of the flat at 11b Coltsfoot Drive - could it not at least be moved slightly to the side and be against the brickwork so as to be out of their line of sight and not reducing daylight in the kitchen,
[REDACTED] there was a similar application approximately 10-15 years ago some of the objections raised then mentioned the fact that this is a busy site between two local schools with young children passing daily this caused concerns on health grounds to some people then.

Kind regards
