By email only: Planning Department, planning@horsham.gov.uk

Thank you for requesting advice on this application from Place Services' ecological advice service. This service provides advice to planning officers to inform Horsham District Council planning decisions with regard to potential ecological impacts from development. Any additional information, queries or comments on this advice that the applicant or other interested parties may have, must be directed to the Planning Officer who will seek further advice from us where appropriate and necessary.

Application: DC/25/1369
Location: McDonalds Restaurant Worthing Road West Grinstead Horsham West Sussex RH13 8LW
Proposal: Installation of 3x internally illuminated Fascia signs, 3x internally illuminated booth lettering signs, 1x internally illuminated booth screen and 4x yellow soffit lights.

Thank you for consulting Place Services on the above application.

No ecological objection	☐
Recommend approval subject to attached conditions	☐
Further information required/Temporary holding objection: European Protected Species (bats)	☒
Recommend Refusal	☐
Subject to Natural England's formal comments on the conclusion of the LPA's Appropriate Assessment	☐

Please note that following receipt of Natural England's position statement on developments in the Sussex North Water Supply Zone, decisions on planning applications should await the completion of a Sussex North water neutrality strategy.

Summary

We have reviewed the documents supplied by the applicant, relating to the likely impacts of development on designated sites, protected & Priority species and habitats and identification of proportionate mitigation. Unfortunately, no information has been submitted in relation to ecology. Please note that comments on Biodiversity Net Gain are provided by Horsham District Council in-house.

We are not satisfied that there is sufficient ecological information on protected species available for determination of this application. We recommend that further information on protected species is provided prior to determination. The reasons for this are outlined below:

European Protected Species - bats

There is no assessment of the impact of the lighting on foraging and commuting bats. [Government Standing Advice](#), says you should ask for a survey if:

- distribution and historical records suggest bats may be present
- the development proposal includes lighting of buildings or green spaces close to habitats that bats tend to use.

The survey information for bats is required prior to determination because paragraph 99 of the ODPM Circular 06/2005 highlights that: "It is essential that the presence or otherwise of protected species, and the extent that they may be affected by the proposed development, is established before the planning permission is granted, otherwise all relevant material considerations may not have been addressed in making the decision."

This information is therefore required to provide the LPA with certainty of likely impacts on legally protected species and be able to secure appropriate mitigation either by a mitigation licence from Natural England or a condition of any consent. This will enable the LPA to demonstrate compliance with its statutory duties, including its biodiversity duty under s40 NERC Act 2006 (as amended) and prevent wildlife crime under s17 Crime and Disorder Act 1998.

Additional comments

The site lies approximately 13.1km east of The Mens Special Area of Conservation (SAC) ([MAGIC maps](#)) and therefore lies outside within the 12km Wider Conservation Area for this SAC. Therefore, a project level Habitats Regulations Assessment (HRA) will not be required.

We also recommend that reasonable biodiversity enhancements for protected, Priority and threatened species should be identified and implemented to secure net gains for biodiversity, as outlined under Paragraph 187d and 193d of the National Planning Policy Framework (December 2024). The reasonable biodiversity enhancement measures should be outlined within a separate Biodiversity Enhancement Strategy and should be secured by a condition of any consent.

Please note we have no comments on Great Crested Newt as we have been instructed to leave comments on this European Protected Species to the [NatureSpace Partnership](#).

We look forward to working with the LPA and the applicant to receive the additional information required to overcome our holding objection.

Please do not hesitate to contact us if you have any queries in relation to this advice.
