Comments:	I fully understand the need for off street parking. As a resident I have trouble finding parking at various times of the day. It's gotten worse over the years and will only get more so due to development . I go to and from home throughout the day as they do. It's so frustrating to not be able to park near the house . Also I haven't been able to get an electric car as no access. This is a problem they have as well.

Kind regards
