Comments summary

Dear Sir/Madam,

Planning Application comments have been made. A summary of the comments is provided below.

Comments were submitted at 25/03/2026 2:45 PM.

Application Summary

Address: Land North West of Southwater

Proposal: Outline planning application, with all matters reserved (except for primary access to the highway) for a phased development comprising: the demolition of existing buildings and the construction of residential dwellings (including affordable housing) (Use Classes C2 and C3); a mixed-use neighbourhood centre (Use Classes E and F); education facilities (Use Class F1(a)); business and employment floorspace (Use Classes B2, B8 and E(g)); redevelopment of existing agricultural buildings including construction of a building for community use (Use Classes E and F2); improvements to public rights of way; sports pitches; gypsy and traveller pitches/plots; public open space; landscaping, and associated infrastructure.

Case Officer: Matthew Porter

Comments Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:

- Design
- Highway Access and Parking

- Loss of General Amenity
- Other
- Overdevelopment
- Privacy Light and Noise
- Trees and Landscaping

Comments:

I strongly object to this proposal for the following reasons:

- 1) This will destroy greenfield rural land to the north west of Southwater and negatively impact wildlife.
 - 2) It represents further massive overdevelopment in the Southwater area.
 - 3) The developer has misrepresented its application to include schools which is not within its remit or power to provide. At a time of falling school roles in Horsham and district schools this represents possible overcapacity and inefficiency.
 - 4) Developers already have significant approvals for housing within the Horsham district that they are choosing not to develop as demand does not exist at the prices they require to maximise their profits.
 - 5) Developers still refuse to build houses on brownfield urban sites within the Horsham district given additional costs they would incur.
 - 6) The development would lead to flooding within the Southwater area.
 - 7) There is a lack of sewerage and drainage infrastructure to cope with this additional housing.
 - 8) This will increase traffic congestion within the area.
 - 9) Ancient woodland would be destroyed.
 - 10) Heath services are not adequate currently so the development would increase them beyond breaking point.
 - 11) There is no local need for this additional housing.
-

Kind regards
