Subject: DISC26/00/16 - HDC Drainage Consultation Response

Categories: Consultations

Good afternoon,

HDC Drainage have reviewed the following documents:

- 'Drainage Package' email with attached documents, sent from Bespoke Property Consultants to Horsham Planning Case Officer, Dated: 23/03/2026.

In principle, HDC Drainage do not object to the design of the proposed drainage strategy. Fundamentally, the proposals offer a betterment to the current drainage scenario.

The applicant should note:

- Any proposed foul water system and foul water treatment unit should be in line with current legislation and best practice for the management of domestic waste, with any method for disposal justified and appropriate permits sought.
- The method of foul and surface water disposal should be in line with Building Regulations Part H.

HDC Drainage have no further comment.

Kind regards,

Amy Furness
Drainage Officer
