[redacted]

[redacted]

[redacted]

If by this it is meant that statements made in this letter would affect the judgement of a fair minded person as to the veracity of our valid objections on the grounds of noise and loss of amenity then I would request sight of this letter.

It would seem that the Agent has been granted his wish for an extension in the decision of this matter and has submitted multiple documents that should not go unchallenged. I would therefore also request an extension so that these documents and their contents can be properly examined and challenged.

Yours sincerely
