[redacted]

[redacted] I am the tenant of Coombers Farm's Bakehouse Copse which is part of the land known as Coombers and Budds Farm.

Land that I have tenanted since 1985 for the purposes of game shooting.

Hawksbourne Wood (55 acres) is adjacent to Bakehouse Copse with a coterminous border.

One of my responsibilities is the management of the deer and squirrel population injurious to the arborcultural health of Bakehouse Copse.

This involves, mainly at pre-dawn, a certain amount of noisy rifle fire.

I believe that the development in the application would be at odds with the DEFRA aims in encouraging the health of woodland in this area of Sussex.

This occurring when proposed residents of this development object to the noise of people furthering this item of " acknowledged importance"

Yours sincerely
