Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	I object to the planned 120 house development. I think there is enough damage and building already in north Horsham. There has been so many accidents some fatal due to just the ridiculous new roundabout by Bowhunt. There has been commercial land flattened and dormant by the railway for months,why? Can this

land, already damaged be used for these houses and leave the said land alone. Surely the new 'race track' around north Horsham is enough. Also, the access to the Moorhead roundabout is ridiculously busy, I used this roundabout regularly and it makes my life and timings difficult. The High Weald landscape has been a part of my and my family life as I was born here. There already has been a significant reduction in wildlife as a whole due to over building. Wild butterflies, birds and insects which we are all reliant on. This building adds to the global damage we already have done. The pollution no doubt, which will increase, will further damage our health, environment and eco systems, we have just experienced our hottest week on record fact, this damage will add to all the above. Having more people living in a massively squeeze Horsham is unacceptable. It's impossible to find a dentist. Doctor, school placement, even driving tens of miles for a hospital appointment. There is already Novartis site in Parsonage Road, why can't a new university, hospital or both be built there and bring some revenue and new business back to Horsham rather than squeeze more dwellings to an under supported market town. Use land already damaged rather than use our green fields and forest.

Kind regards
