Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Overdevelopment - Trees and Landscaping
Comments:	Concerned about the loss of habitat for native species. I own an allotment (one of many) along the tree line adjacent to the plot in question where we grow vegetables organically and to have building works would disturb the environment, displace natives such as adders, field mice and bats which have all been seen in this area. We are increasingly losing our open green spaces to too much house building. These green spaces are vital to good

mental health and relaxation. Why are the brown sites not being utilised, we must not use green fields for building as we will never get this back. Over the years Horsham has suffered a barrage of new builds with no infrastructure created to cope with the extra capacity. I strongly object to any permission being granted.

Kind regards
