Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	We wish to object to the current planned extension. We have no object to the side extension but do have an objection to the balcony on top pf the ground floor extension to the left of the property. This will give the occupants a 180 degree view across all neighbours gardens in an area where the existing houses are placed/designed not to overview neighbouring properties through the staggering of buildings and no side windows that would have resulted in overlooking others gardens etc.

No property in the immediate area has any balcony which ensures neighbours privacy. Creating this precedence will open doors to anyone in the area to doing the same.

The fact that the balcony is situated on top of a new ground floor extension enables anyone sitting on it to obtain clear views accross all neighbours gardens and through first floor windows houses.

I would welcome any discussion regarding this matter

Kind regards
