

The diagram is a black and white architectural floor plan of a house. The layout includes a central hall with a staircase. To the left of the hall are two bedrooms, each labeled 'RWP' (likely 'Room with Private' or 'Room with Privacy'). To the right of the hall is a bathroom labeled 'Bath'. At the bottom of the plan is a kitchen area. A dashed line runs vertically through the central hall, possibly indicating a partition or a structural element. The word 'House' is written vertically in the center of the plan. The plan shows various doors, windows, and furniture placements, including a bed in one of the bedrooms and a desk in the kitchen area.

Architectural section drawing of a building facade. The drawing shows a cross-section of a wall and roof assembly. On the left, a hatched area represents the ground or foundation. A vertical line indicates the exterior wall surface. To the right of this line, a wavy, green-shaded area is labeled "bed to break-up rendered wall". Further right, a vertical line is labeled "bed to break-up rendered wall". The interior of the building is shown on the right side of the drawing. A horizontal line at the top represents the roof or ceiling. A vertical line on the right side is labeled "RWP" (Roof Water Pipe). The drawing is a technical illustration showing the relationship between the exterior wall, the break-up bed, and the interior structure.

- Oversized front door to aid access and create a sense of arrival

— Timber framing to create entrance

Top of Wall approximately 1930
