Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Trees and Landscaping
Comments:	I am concerned that the development does not adhere to Landscape conditions as outlined in the Places Services Report of 18/2/26. In particular the houses are too tall for the setting and will be visible from protected views to the south, contrary to the Neighbourhood Plan. In addition the green buffer proposed between the development and the nearby Grade 11 listed building to the southeast is too narrow and poorly designed to be meaningful.

I suspect the above would be resolved if the development adhered to the Henfield Neighbourhood Plan allocation for single-storey downsizing accommodation, NOT two-storey large family homes.

So the wrong type of housing is part of the development. Our village desperately needs dwellings for older and downsizing residents. I include myself in the latter as I currently live in a two bedroom property which makes a great starter home, but unless I can downsize to a one bedroom property I need to remain where I am.

My final objection is based around our need to protect natur

Kind regards
