Subject: Tree Application - DC/25/0324

[redacted] [redacted]

Good morning,

Just following up on tree application DC/25/0324 with regards to the requirement to replace the 3 ash and 1 cherry we have applied to fell.

The area where these trees are situated is already very densely populated with many specimens competing for root space and sunlight. Previous owners had some trees removed back in 2008 and these were replaced by acers which have not fared well in the environment.

Our customer (cc'd) is open to suggestions and would welcome a call or visit from the Horsham Tree Officer to discuss.

Kind regards
Kate
