Dear Halima,

Thank you for your email.

Please be advised that I have contacted our customer on Monday, and I received the below photos of the property.

I trust the photos are sufficient as I also asked our surveyor if he would be able to re visit the site asap and take additional photos. Unfortunately, he has surveys booked in different locations and he wouldn't be able to visit our customer until next week.

With regards to photos of the immediate neighbouring property's rear elevations our customer does not feel comfortable, and she is not sure how take the photos of someone else's house. I found some photos of the next-door property/ extension (no 29) on Rightmove, would you like me to send them as well?

Lastly, I have now requested for our plans to be amended and will send them to you once complete, which would be within few days.

I look forward to hearing from you.

Kind Regards,

Dear Mrs Elwira Baranowicz

DC/25/0311,
30 Potters Place, Horsham,
Erection of a replacement rear conservatory.

I refer to your email below.

The Council's site visit procedure has changed and site visits are only conducted for certain case files but not for all planning applications. Therefore, the requested photos would assist with assessing this application. If your surveyor is unable to obtain the requested photos you could ask the applicant to take the necessary photos from the bottom of their rear garden by capturing as much of the eastern and western neighbouring property's rear elevations.

I am willing to accept the requested information beyond 04th April 2025.

Kind regards

Halima Chowdhury

Hi Halima,

Can you please clarify the below, as we do show all our customer's property elevations on our drawings.

Having reviewed the content of this case file, the submitted plans only partially show the existing and proposed side elevation. Please kindly provide metrically scaled plans showing the full existing and proposed side elevation plans in context of the main dwelling.

I would be grateful if you could clarify why all the below is required, as we are replacing an existing structure, and our surveyor wouldn't normally walk around the neighbourhood and take pictures of the neighbours rear gardens. I thought that this could been seen and ascertain during the site visit carried out by case officer.

We wouldn't be able to provide the information by 4th April as our surveyor doesn't leave local to our customer.

The photos showing examples of similar proposal nearby.
- The photos of both of the immediate neighbouring property's rear elevations.
- If there are any windows / doors present on the neighbour's elevations (walls) please specify the following;
    - On which elevations (walls) are the windows / doors present on the neighbour's property?
    - What rooms do these windows / doors serve on the neighbour's property?

I look forward to hearing from you.
