LOCATION:	37 Highwood Crescent, Horsham, RH12 1UG
SUBJECT:	DC/24/0319 Conversion of garage.

RECOMMENDATION:	Advice

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This application seeks the conversion of existing garage. The site is located on Highwood Crescent, an unadopted road – as such, these comments should be considered as advice only.

An existing garage will be lost as part of the proposals. The site does benefit from an existing driveway providing two off-street parking spaces, which will be retained. The potential displacement of one car would have to be accommodated on-street. Whilst this would not be anticipated to give rise to a highway safety concern or parking capacity issue in this location, the LPA may wish to consider the potential impacts on on-street parking from an amenity point of view.

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 115), and that there are no transport grounds to resist the proposal.
