Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment
Comments:	Objection to Planning Application DC/26/0912 I have lived on High Bar Lane for many years and strongly object to this application. Thakeham has already seen more than its fair share of development. We are constantly told each new application or variation will have little impact, but the cumulative effect is obvious to those of us who live here. Our roads, local services and natural

environment are already under increasing pressure.
West Sussex is an area of serious water stress, so it makes no sense to weaken or alter a planning condition that was put in place to limit water use. Environmental safeguards should be strengthened, not watered down to suit developers.
The Council should put local residents and the environment before developer

Kind regards
