

INDICATIVE PLANTING PALETTE

DOCUMENT REF: SRP1029-LLB-00-EX-T-L-0005
REVISION: P02
DATE: 29/06/2026
PURPOSE: INFORMATION EXCHANGE 4
REV HISTORY: P01 31/03/2026 INITIAL ISSUE

LEGEND

Standard Tree

12-14cm girth 2-3m high

Tilia cordata 'Greenspire', 12nr

Betula pendula 4nr

Acer platanooides 'Princeton Gold' 5nr

Crataegus laevigata 'Paul's Scarlet', 1nr

Sorbus aucuparia 'Sheerwater Seedling' 1nr

Prunus avium 'Plena' 1nr

Acer campestra 1nr

Populus tremula 1nr

Malus sylvestris 1nr

Salix cinerea 1nr

Carpinus betulus 4nr

Tilia platyphyllos 4nr

LEGEND

Native Species Hedge

Double staggered row @ 7 plants per metre, 60-80cm high whips.

45% *Carpinus betulus*

25% *Acer campestra*

15% *Salix cinerea*

15% *Salix viminalis*

Ornamental Hedge

Double staggered row @ 3-4 plants per metre, 60-60cm high 5-7,5L Pots

100% *Griselinia Littoralis*

WILDFLOWER GRASS (SEEDED)

- 3.0% Leucanthemum vulgare
- 3.0% Rhinanthus minor
- 0.2% Capsella bursa-pastoris
- 2.0% Onobrychis vicifolia
- 1.5% Vicia sativa
- 1.6% Coreopsis lanceolata
- 2.0% Cosmos 'sensation mix'
- 1.0% Calendula art shades
- 3.0% Echinacea
- 2.0% Heliopsis helianthoides
- 0.7% Symphyotrichum laeve
- 40.0% Fescue ovina
- 20.0% Festuca rubra rubra
- 5.0% Cynosurus cristatus
- 5.0% Alopecurus pratensis
- 5.0% Arrhenatherum elatius
- 5.0% Festuca rubra commutata

NOTE the following species are not to be used within proposed seed mixes.

- Corncockle
- Corn Poppy
- Birdsfood Trefoil
- Wild Teasels
- Common Knapweed

70/30 SuDS GRASS 7 WILDFLOWER SEED

SuDS Mix 70/30 Meadow Wildflowers is a specialist grass and wildflower seed mixture designed for Sustainable Drainage Systems (SuDS). Combining 70% carefully selected grasses with 30% native wildflowers, this robust mix provides excellent soil stability, rapid establishment, and long-term ecological performance in sites subject to extreme moisture variation, from winter waterlogging to summer drought.

SuDS Mix 70/30 is ideal for swales, attenuation basins, rain gardens, floodplain planting, and water-sensitive landscapes, where hydrological performance must be combined with ecological and aesthetic value. The grass component stabilises soils, prevents erosion, and maintains sward structure, while the wildflowers provide seasonal

BIO-SOLAR GREEN ROOF (SEEDED)

Bauder Flora 3 Seed Mix

The Flora 3 plant mix is ideal for BioSOLAR installations and contains a broad spectrum of species, 35 of the 49 species of plant are classed as RHS Perfect for Pollinators. Plants, such as, Wild Red Clover and Vetch provide valuable nectar for the long-tongued Bumblebee, Brown-banded Carder Bee. Plant seed heads from Black Knapweed and Common Toadflax, provide a refuge for overwintering invertebrates and are a valuable seed sources for birds.

HEAVY TRAFFIC GRASS (TURF)
