Dear Planning Inspector

Re: **OBJECTION TO PLANNING APPLICATION DC/26/0670**

We were absolutely horrified to hear of the above application for 120 houses to be built at Newhouse Farm, Old Crawley Road, Faygate, Horsham, especially as the land is part of the High Weald National Landscape and therefore part of an area of outstanding natural beauty.

This is just another "nail in the coffin" after 2000+ houses being built on the so called Mowbray Village site. Just shocking.

In this day and age when there is so much emphasis on getting out into the countryside to improve our mental health and wellbeing we should not even be considering covering our wonderful green spaces in concrete, let alone the roads that would need to be built to accommodate more and more traffic causing severe pollution and thereby adding to the strain on our NHS having to deal with the fallout from all those people who suffer with breathing difficulties. Another factor is the constant drain on our water systems due to the drier weather and long hot summers that are increasing as the years go by.

Please carefully consider our above comments and **DO NOT** approve this disastrous application.

Yours faithfully
