Dear Mr Holmes

Further to my last email, please find attached further supporting photos of the manholes of the HydroClear wastewater treatment tank. An additional email will follow this one to ensure all documents are safely received.

Kind regards,

Louise Winder

Subject: DC/25/0568 Chase Farm Planning Application

Dear Mr Holmes

Thank you for your email enquiry requesting further information.

Landscape

Points 20 to 23 – topographical and tree surveys are booked and we expect to receive the results in early to mid-March. Please note that access to the units will be on foot (parking within farmyard) over gravel or wood chip pathways.

Point 24 – we confirm that this consideration will be met.

Point 25 – we already have a boundary fence around our property which is stock proof – see photo.

Point 26 - we confirm that this consideration will be met.

Highways

Please note that we already have a bike parking and EV charger within the farmyard – see photo attached. Parking for cars will be located on hardstanding already present within in the farmyard – see plan attached.

Environmental Health

A HydroClear HC12 waste treatment was installed from our previous planning consent. Please see details photos attached. Further photos of manholes will be sent in a second email as they are too big to be sent together.

Should you require any further information, please do not hesitate to ask.

Kind regards,

Louise Winder
