[REDACTED]

Thank you for sending back the plans regarding the above.

Unfortunately the plans are NOT as your letter from Marie Riggs stated! I state as the letter:
Loft conversion with TWO dormers to FRONT elevations, 1 dormer and three roof lights to REAR elevation
And 1 roof light to side elevation.

Obviously we are not at all happy and we OBJECT in the strongest of terms on the grounds of over development and lack of privacy this proposal would afford us namely we will be totally looked in our rear garden and our side elevation.

Something really incorrect with this application. Please advise soonest.

Regards,
