Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	I strongly support this application. As a local family, we believe the playpark would be a real asset to the village and would provide a much-needed safe and welcoming place for children and families to meet, play and spend time together. Its location close to the school and preschool is particularly valuable. It would give children the opportunity to play and socialise with their friends after school or preschool, while also creating a natural meeting point for parents and other members of

the community. At present, families often have little option but to leave straight after pick-up, and a good local play space would help strengthen those everyday connections within the village.

More broadly, having an attractive and accessible play area is an important amenity for existing families and helps make the village a welcoming place for younger families in the future. We have supported the playpark project from the outset and would be delighted to see this much-needed community facility go ahead.

Kind regards
