Comments:	I am writing in support of planning application **DC/26/1321** for the installation of new children's play equipment at Colgate Memorial Hall. As a resident of Colgate and a parent of three children, I believe this would be a very positive addition to the village. Providing safe, accessible and good-quality play equipment would give local children an opportunity to play, exercise and socialise close to home, while also providing a valuable facility for families within the

village and surrounding community.

I particularly welcome the proposal because the new equipment is being positioned in the location of the pre-existing play equipment. This makes good use of an established community space and provides an opportunity to improve and modernise an existing facility without introducing a new use or development elsewhere in the village.

A well-maintained children's play area can make an important contribution to the village's community facilities, encouraging outdoor activity and giving families a place to meet and spend time together. I consider the proposal to be a suitable and beneficial use of the site and hope the application is approved.

I therefore fully support planning application **DC/26/1321**.

Kind regards
