

Further to your mail of 8/12/25 I have seen that an application has now been submitted and is being considered. I have today submitted an objection but the 21 day consultation period would now seem to have lapsed.

From your mail, I had expected that I would be notified when the application was due to be considered but this did not happen. I shall be pleased if you will make representation to the case officer that my objection should be noted as I had every reason to believe I would be alerted, but was not! Further, I had not seen any display of a planning notice at the property to alert me to the application.

I look forward to a favourable response to this request.

Kind regards,
