Stance: Customer objects to the Planning Application

Reasons for comment:

- Design
- Loss of General Amenity

- Other
- Overdevelopment
- Trees and Landscaping

Comments:

I am objecting to the Berkeley Homes proposal to build 1,000 homes northwest of Southwater because the visual impact on the surrounding landscape has not been honestly or properly assessed.

Southwater sits on a gently elevated, open plateau. Unlike settlements protected by valleys or woodland, the quality of Southwater's setting is defined by its wide, open views across the Low Weald countryside. This is one of the things that makes living here distinctive - the sense of being in a village in open countryside rather than in continuous suburban sprawl.

Building 1,000 homes along the western edge of the village will fundamentally alter what is visible from the surrounding countryside. A continuous line of rooftops, streets and buildings extending across the current farmland will be visible for considerable distances - changing the character of the landscape irreversibly.

There is an added cumulative dimension. The Golf Club site to the north and Broadacres to the east are both adding hundreds of homes to Southwater's edges at the same time. No Landscape and Visual Impact Assessment has been done that looks at all three developments together and honestly assesses what Southwater will look like from the surrounding countryside when they are all complete.

This is not a subjective preference. Protecting landscape character is a specific requirement of national planning law and the Southwater Neighbourhood Plan. I ask that the Berkeley Homes 1,000-home proposal be refused until a full cumulative

Landscape and Visual Impact Assessment covering all three concurrent Southwater developments has been independently conducted.

Kind regards
