Customer Details

Address:	Wilcocks farm Horsham

Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity
Comments:	Ref: Construction Traffic management. Kent Street is a narrow and poorly maintained country lane, used by residents, horse riders and dog walkers. There are few passing places and the verges are rutted and even more dangerous in the winter months when the lane is icy and flooded. It cannot cope with extra traffic, let alone numerous heavy construction vehicles. Access into and out of Kent Street to the A272 is difficult at most times and this would be exacerbated by more traffic.

Digging up the length of Kent Street, part of Wineham Lane and Bob Lane to allow cables to reach the Bolney Grid would have a major negative impact on all of the local residents and inevitably cause loss of amenity for everyone.
We urge the council to reject the plans so that the surrounding area continues to be quiet, non-spoilt countryside and not an overdeveloped industrial site.

Kind regards
