TREE INSPECTION REPORT

Client: [redacted]
Location: 11 Downlands, RH13 8QU
Date of inspection: 28th April 2025
Inspector: Max Ferretti ND Arb, TechArborA

Our reference: TIR-11 Downlands/04/25

Identification of trees, providing specifications of recommended works

I confirm that there is significant dangerous dead wood within Oak T3 which overhangs the highway. These dangerous branches must be removed in conjunction with the letter sent to my client by West Sussex Highways, Ref. 50059714/504217

T1 Oak - Reduce crown to previous points, approximately 2 meters. raise crown over highway by 5 meters.

T2 Horse chestnut - Reduce crown by 2 meters and raise crown by 3 meters over public footpath.

T3 Oak Reduce crown to previous points, approximately 2 meters. Remove dead limbs over highway and ensure a crown hight of 5 meters.

Signed. *MFerretti*
