

WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Horsham District Council FAO:
FROM:	WSCC Highways - Public Rights of Way
DATE:	28 August 2026
LOCATION:	Woodmans Farm London Road Ashington West Sussex
SUBJECT:	DC/26/1320 Prior notification for the erection of an agricultural building and associated works.
DATE OF SITE VISIT:	n/a
RELEVANT PUBLIC RIGHTS OF WAY NUMBER(S):	Bridleway WIS-2500 & Footpath WIS-2501
RECOMMENDATION:	More information
S106 CONTRIBUTION TOTAL:	n/a

Thank you for the opportunity to comment on the above numbered planning application. This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. In respect to the above planning application I would provide the following comments.

I understand that this application relates to the prior notification for the erection of an agricultural building and associated works for the storage of agricultural machinery, equipment and materials associated with the agricultural enterprise operated on the land.

Having reviewed the available documentation, it appears that Public Bridleway WIS-2500 runs within the application site boundary and may also form part of the vehicular access to the site. However, the Supporting Statement does not appear to make any reference to how this public right of way will be accommodated, protected, or managed during the construction phase or following completion of the development.

I would also like to draw the applicant's attention to Public Footpath WIS-2501, which appears to lie within the application boundary and is currently shown as passing through a building on the proposed site layout. Should the development affect the legal line of the public footpath, the applicant may need to seek a diversion order under Section 257 of the Town and Country Planning Act 1990.

I would also highlight the following considerations:

The existence of a Public Right of Way (PROW) is a material consideration. Should planning consent be granted, the impact of development upon the public use, enjoyment and amenity of the PROW must be considered by the planning authority.

The granting of planning permission does not authorise obstruction of, interference to or moving of any Public Right of Way (PROW); this can only be done with the prior consent of West Sussex County Council (WSCC), as highway authority, and possibly also a legal Order process by (Horsham District Council) as the local planning authority. Further advice can be provided on request.

Safe and convenient public access is to be available at all times across the full width of the PROW, which may be wider than the available and used route – advice on the legal width can be provided by the WSCC PROW Team.

The path is not to be obstructed by vehicles, plant, scaffolding or the temporary storage of materials and / or chemicals during any works. These will constitute an offence of obstruction under the Highways Act 1980.

No new structures, such as gates and stiles, are to be installed within the width of the PROW without the prior consent of the WSCC PROW Team. These will constitute an offence of obstruction under the Highways Act 1980.

Any down pipes or soakaways associated with the development should discharge into an existing or new drainage system and away from the surface of the PROW. No drainage system is to be installed through the surface of the path without the prior consent of the WSCC PROW Team.

Where the ground levels adjacent to the PROW are to be raised above existing ground levels, this could increase the potential to flood the path. A suitable drainage system must be installed adjacent to the path to a specification agreed with the WSCC PROW Team prior to development commencing.

Any alteration to or replacement of the existing boundary with the PROW, or the erection of new fence lines, must be done in consultation with the WSCC PROW Team to ensure the legal width of the path is not reduced and there is no unlawful encroachment. Access along a PROW by contractors' vehicles, deliveries or plant is only lawful if the applicant can prove it has a vehicular right; without this an offence under the Road Traffic Act 1988 section 34(1) is being committed.

The applicant is advised that a public access right has precedence over a private access right. Where a PROW runs along a route also used for private access purposes, usually for private vehicle access, this shared use has the potential for accident or injury – the applicant must consider how access is managed so the public is not endangered or inconvenienced.

It is an offence to damage the surface of a PROW without the prior consent of the WSCC PROW Team. The applicant must supply a specification and secure the approval of the WSCC PROW Team before works affecting the PROW begin, even if the surface is to be improved. Where a PROW surface is damaged and there was no prior consent, the applicant will be liable and required to make good the surface to a standard satisfactory to the WSCC PROW Team.

Where it is necessary to undertake works within the legal width of a PROW, e.g. install utilities, (or for development works immediately adjacent to a PROW that can not reasonably be managed through different Health and Safety practice) the applicant must be advised to apply to WSCC PROW Team for a temporary path closure. The applicant must be advised there is no guarantee an application will be approved; that a minimum of (6) weeks is needed to consider an application.

Where it will be necessary to permanently divert or extinguish a path 'to enable development to take place' by means of a Public Path Order (PPO) (most often under Town & Country Planning Act 1990 s257), to be applied for by the developer through the Local Planning Authority prior to development, WSCC PROW Team is not able to grant a temporary path closure as a precursor to a PPO. In such circumstance, WSCC PROW Team will only consider an application for a temporary path closure once the Local Planning Authority has made and confirmed a PPO.
