The Swallows, Hole Street,
Ashington, West Sussex
RH20 3DE

Creation of Agricultural access track,

The Track has already been constructed without planning and should be retrospective planning. The red boundary line between our land and their land is marked in the wrong place, the land on our side has the hedge boundary and the land owned by Mr D & Mrs K Ockleford has the stream boundary. The Line has been drawn as a wandering line onto are lane over onto our land, instead of following the line of the stream.

We are also concerned that the past application shows a bridge onto our land which has no right to be there as they have NO Right of access to our land, as our solicitor has proven. This has no planning permission and should be removed as it serves no purpose and is a proven trespass.

For the reasons stated above we feel that this application should be dismissed.

Yours faithfully

[redacted]
