Hello Jonny

Thank you for your email, please accept my apologies for not completing application properly! I have been unable to send a reply on your original email from yesterda

We would like to reduce the side branches that overhang our roof by 1 metre. At the moment due to the branches not being in leaf, they look like they do not overhang the roof, but once in leaf and growing, they will be over the roof by the end of the summer. The branches are on our north border.

Pictures attached.

The only references I can find are on the original TPO and they are as follows:
TPO 1336
517602E 132618N

If you need anything further, please let me know.

Kind Regards

Wendy Fuller
