Dear Alice

Re: Planning Application No: DC/24/1677 – Removal of conditions 3 & 4 of RS/11/01 relating to the conversation of buildings to a dwelling & garage retention of access, removal of hardstanding to form paddock at Daisy Cottage, Bonnetts Lane, Ifield

Our Ref: LGW5691

Thank you for your letter/email dated 21 November 2024, regarding the above-mentioned consultation.

The proposed development has been examined from an aerodrome safeguarding perspective and does not conflict with safeguarding criteria. We therefore have no objection to this proposal.

We would, however, make the following observation:

Additional Runway to the South of London Gatwick

The site to which this application relates lies within the extended boundary for the proposed additional runway to the south, published by GAL in July 2014, being land which London Gatwick **may** require for airport development in the event of permission being granted for an additional runway to the south of the airport.

However, in the event of a Government decision in favour of an additional runway to the south, resulting in more detailed design work required for a planning application, this future boundary position might be adjusted, either increasing, or reducing, the impact on this site.

If you have any queries, please do not hesitate to contact me.

Yours sincerely

Amanda Purdye, Aerodrome Safeguarding Officer
For and on behalf of London Gatwick
