Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Privacy Light and Noise
Comments:	Good day, We believe that addition of one more storey will cause loss of day light to our terrace and block access to our roof window. Raised storey will be in good angle to be able to see in our bedroom with roof window and cause loss of privacy for whole day not to mention being able to see directly on our terrace in once again causing loss of privacy not only for us but also for adherents flat 2 and flat 3. The project is without parking permit, however the resident will have with high probability a car as well and will park on residential street where permit is not needed. The pavement on black horse road will be used for constant offloading and loading of

their cars causing danger to pedestrians a traffic.

The design does not fit overall the design of Horsham and is a thorn in the eye when looked at it. Adding one more storey will make the horrendous unflattering design even worse.

Also just a note, previous alternation has caused us massive stress and bended gass pipe on our roof top. The scaffolders tried to put their scaffolding illegaly on our rooftop, tried to drill into our wall to secure it. If I was not home and did not stop it it would happen. [REDACTED]

[REDACTED] If this project goes on we ask for propper scaffolding that is secured as was the one recent Loyds bank refurbishment used and nothing over or on to of our roof without previous written agreement.

Kind regards
