22nd October 2026

PLANNING Statement.

Minor Amendments (Section 73) to vary condition 3 of application ref DC/24/0048. The use of 50 spaces as illustrated on drawing ref: TQRQM2401922102340 Rev A for private car parking for local businesses shall cease on or before 17th June 2026. Condition 3 was required as a precaution to any public objections at peak periods of the day.

We believe that we have fulfilled all the conditions imposed at the time of granting the application in January 2024. We submitted and installed a comprehensive Monitoring and Management Plan which included the vehicle and users details, supplied by the companies, a copy of terms of use how the car park is being monitored and how any breach of terms of use is being enforced.

We have monitored the entrance to Gorings Mead at peak times. The traffic flow is not affected by cars leaving and going towards Horsham which appears to leave gaps for Gorings Mead residents to leave their premises without stopping the traffic flow. There are four local companies using this parking facility with varied staff, either part time or staggard day working and therefore there are no peak times of entry or leaving the site which was the original concern. We have not received or been notified of any public objections at peak periods which was the original concern. This car parking facility is still required by these local companies

The use of the land is being carried out in accordance granting of the planning application DC/24/0048 with the Car Park Monitoring and Management Plan. This application is to remove (condition 3) regarding the period restraint.
