Subject: Planning Application DC/23/0406

Dear Sirs

Re: Planning Application DC/23/0406

The water sustainability report attached to this application contains a lot of incorrect information

There has never been a car valeting service on this site, it is a gated green field site. This is a complete fabrication

The report uses a figure for the daily water use of 85litres per person. The figures used by most water companies, based on their billing, is between 140 and 145 litres! After deducting the 32.5% for greywater use the difference between these two figures is almost 4 million litres per annum

Add to this the 375000 litres not used by an imaginary car valet and this means an annual use of approx. 4.36 million litres not accounted for in this report.

It is simply not fit for purpose and should not be used for this application
