To Whom It May Concern at Horsham District Council,

As a member of the public, I object to planning application DC/25/2057, land north of Little Slaughterford. Were the application to be approved and go forward, it would have an immensely detrimental effect on highway safety and parking.

The increase in traffic will lessen safety, especially the new access onto Chapel Road which will cause congestion and create a greater likelihood of accidents.

Parking outside the village shop and pub will also be impacted negatively. These are both centres of community activity and vital to local commerce. The construction, the resulting traffic congestion and the implications for parking will place both the store and the pub under immense pressure.

I urge you to reject this application in the interests of safety of the local community and because of the detrimental impact it will have on the businesses upon which that community relies.

Sincerely yours,
